633 N Saint Clair St
Chicago, Illinois 60611

Program Details

The National Accreditation Program for Breast Centers (NAPBC) is a consortium of national, professional organizations dedicated to the improvement of the quality of care and the monitoring of outcomes for patients with diseases of the breast. NAPBC accreditation is granted only to those centers that are voluntarily committed to providing the best possible care to patients with diseases of the breast. The Web site provides a listing of the accredited breast centers nationwide. A searchable database of NAPBC-accredited hospitals, as well as resources and services available at each NAPBC Hospital is available on the NAPBC’s Patient Resource website at http://accreditedbreastcenters.org/resources/resources.html The NAPBC strategically built its leadership by inviting leaders from the major disciplines that routinely work together to diagnose and treat breast disease to become part of the consortium. Working toward one goal, this multidisciplinary group formed the NAPBC Board that mutually defined 27 program standards and 17 program components of care that collectively provide the most efficient and contemporary care available for patients diagnosed with diseases of the breast. NOTE: The ACoS and the NAPBC cannot make referrals to specific physicians or medical facilities.
