American Board of Medical Specialties (ABMS)

353 North Clark Street Suite 1400

Chicago, Illinois 60654

Additional Information

Program Details

The American Board of Medical Specialties (ABMS) is the umbrella organization for the 24 approved medical specialty boards in the United States. The ABMS maintains a list of all board certified physicians. Information about a physician's certification status can be obtained through the ABMS Web site at <http://www.certificationmatters.org/>. Information about whether a specific doctor is certified by an ABMS Board is available via the Web site or phone number. However, if the caller would like information on board certified physicians (such as medical oncologists) in a geographic area, that can be provided only on the Web site. ABMS is not a doctor referral service. It can only provide verification of ABMS Board certification. It is not an all-inclusive list of physicians. The lists of specialists in your geographic area are only those who are board certified. You can take your list to your doctor or other respected health professional for their advice on referral. The ABMS publication, The Official American Board of Medical Specialties (ABMS) Directory of Board Certified Medical Specialists® (revised annually), is available in many medical and public libraries.
